Allowable Subject Matter

Claims 1-6, 8-16, 18-26 and 28-30 (renumbered 1-27) are allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination does not fairly suggest the claimed invention of detecting violations of type rules in a computer program. Specifically, claims 1, 11 and 21 are directed to locating an explicit type casting operations and checking the explicit type casting for a violation of a type casting rule and indicating type of violation found. Therefore, the claimed invention improves the verification process and makes validation of type-based restrictions tractable for large commercial applications to achieve optimization.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
